

Bovine TB in Alpacas and Llamas

If you own alpacas or llamas we recommend you visit our website www.alpacatb.org. The website gives detailed advice on what happens if you are unfortunate to come down to bovine TB in your herd and also advice on measures you can take to reduce the risk of it happening to your herd. Operated and run by British Veterinary Camelid Society vet Dr Gina Bromage MA, Vet MB, DVM, MRVCS, and Dianne Summers founder of the Alpaca and Llama TB Support and Research Group.

We liaise directly with DEFRA AHVLA to provide the latest up to date information.

Please feel free to contact us with any questions you may have. We offer a 24/7 free advice and support service .

For help and advice call Dianne on 01209 822422
